

VUL-FRM-02-04 Hazardous Substance Approval

All approved Hazardous Substances are recorded on VUL-REG-18-26-Hazardous Substances Register. Prior to bringing any nonauthorized hazardous substance on to site the requestor must complete this form and attach a current SDS. The form shall be submitted to the HSET Department for approval. Prior to applying to have a new hazardous chemical approved the requestor must check the Hazardous Substances Register to determine if a site approved substance could be used as a substitution.

Section 1 – Requestor Details			
Name:		Request Date:	
Company:		Phone No:	
Section 2 – Chemical Details			
Chemical Name:			☐ SDS Attached
Manufacturer:			
Physical State:			
Container size/quantity:			
Purpose:			
Intended Area of Use:			
Hazards:			
PPE Requirements:			
Storage Requirements:			
Disposal Method:
